1. Introduction

This Remuneration Report has been prepared in compliance with the requirements arising from Article 90g of the Act on Public Offering, Conditions Governing the Introduction of Financial Instruments to Organised Trading, and Public Companies ("Act on Public Offering") as well as § 16 of the Management Board and Supervisory Board Remuneration Policy of XTB S.A. of 16 February 2022 adopted by the General Assembly of XTB S.A. on 25 April 2022 ("Remuneration Policy").

This Report contains comprehensive information about remunerations received and due to individual Members of the Management Board and of the Supervisory Board of XTB S.A. ("Company", "XTB"). Remunerations were granted pursuant to the Management Board and Supervisory Board Remuneration Policy and Variable Remuneration Policy.

2. Total remuneration of the Members of the Management Board and the Supervisory Board

The components of the remuneration of the Members of the Company's Management Board and Members of the Company's Supervisory Board for 2022 were paid and granted in a transparent manner and in compliance with the adopted Remuneration Policy. When determining the rules of remuneration of the Members of the Management Board and Members of the Supervisory Board, the rules of remuneration of all employees of the Company were taken into consideration, as well as the analysis of the situation on the labour market and market wages in companies of similar scale and specifics or whose objects of operation are similar to those of the Company. The process of determination of the remuneration of the Members of the Management Board and Members of the Supervisory Board included an analysis of the scope of responsibility, potential risk and specifics of the area supervised by the given Member of the Management Board or Member of the Supervisory Board.

2.1. Remuneration of the Members of the Management Board

The remuneration model for the Members of the Management Board of XTB S.A. includes fixed remuneration, variable remuneration and non-monetary benefits. The rules and value of remuneration of the Members of the Management Board are determined by the Supervisory Board. The Members of the Management Board receive remuneration under indefinite term employment contracts.

Fixed remuneration of the Members of the Management Board

The fixed remuneration, as a component of the total remuneration of the Members of the Management Board, corresponds to the type of work performed by the individual Members of the Management Board and qualifications required to perform it, and takes into account the quantity, assessment and quality of performed work. The scope of organisational responsibility of the given Member of the Management Board is also an important factor that is taken into account. When determining the value of the fixed remuneration, the Members of the Supervisory Board take into consideration the situation on the local labour market, in such a manner that the remuneration of the Members of the Management Board does not encourage to take excessive risk in order to obtain a variable remuneration component.

Variable remuneration of the Members of the Management Board

The variable remuneration of the Members of the Management Board is an annual bonus depending on accomplishment of management objectives. Variable remuneration depends on the sustainable and adapted-to-risk performance of the individual Members of the Management Board and performance of the Company and the Group.

The set objectives and the rules of assessment, on which granting and the value of variable remuneration depends, are communicated to the Members of the Management Board. At least 40% of the variable remuneration component depends on the performance of the individual and takes into account the risk involved in the Company's operations.

The ratio of the variable remuneration components to the fixed remuneration components must not exceed 200% in respect of each member of the Management Board, and for a Member of the Management Board responsible for Risk that ratio must not exceed 100%.

The variable remuneration components are paid in tranches, taking into account long-term interest of the Company. At least 50% of the variable remuneration components were granted in the form of XTB's stocks or financial instruments the value of which was connected with the Company's financial standing.

At least 40% of the variable remuneration components paid in the form of a Financial Instrument is settled and paid within three to five years, and the said period is determined taking into consideration the economic cycle, nature and risk of conducted business as well as the duties of the given person. If the variable remuneration does not exceed the Polish zloty equivalent of EUR 50,000 and $\frac{1}{4}$ of the total annual remuneration of the Member of the Management Board, it is not deferred.

If the amount of the total remuneration of the given person in the previous financial year exceeded the Polish zloty equivalent of EUR 1,000,000, the deferral applies to 60% of the variable remuneration components.

Non-monetary benefits for the Members of the Management Board

2.2. Remuneration of the Members of the Supervisory Board

The rules of remuneration of the Members of the Supervisory Board are specified in the Management Board and Supervisory Board Remuneration Policy. The Members of the Supervisory Board receive remuneration under their appointment relationship. The remuneration model for the Members of the Company's Supervisory Board includes fixed remuneration and non-monetary benefits. The rules and value of remuneration of the Members of the Supervisory Board are determined by the General Assembly under a resolution.

The Members of the Supervisory Board receive only fixed remuneration and remuneration in the form of non-monetary benefits.

Fixed remuneration of the Members of the Supervisory Board

The fixed remuneration of the Members of the Supervisory Board corresponds to the type of work performed by the individual Members of the Supervisory Board and qualifications required to perform it, and takes into account the quantity, assessment and quality of performed work. The scope of responsibility of the given Member of the Supervisory Board is also an important factor that is taken into account. The value and rules of remuneration of the Members of the Supervisory Board were determined by the General Assembly in resolution no. 7 of 25 April 2022.

The remuneration granted to the Members of the Supervisory Board according to the Remuneration Policy adopted by the Company is divided into three thresholds:

- a) the remuneration of the Chairperson of the Supervisory Board;
- b) remuneration of the Members of the Supervisory Board who concurrently act as a member of at least one committee of the Supervisory Board;
- c) remuneration of other Members of the Supervisory Board who do not act as members of any committee of the Supervisory Board.

The remuneration granted by the Company to the Members of the Supervisory Board reflects, thus, their supervisory functions and work in the committees. In 2022 the Members of the Supervisory Board acted in the following committees:

- Mr Jan Byrski – Chairperson of the Supervisory Board, Chairperson of the Remuneration Committee, Chairperson of the Risk Management Committee and Chairperson of the Nomination Committee to 16 August 2022.
- Mr Jakub Leonkiewicz – Member of the Audit Committee, Member of the Remuneration Committee, Chairperson of the Risk Management Committee and Member of the Nomination Committee to 16 August 2022.

- Mr Bartosz Zabłocki – Member of the Audit Committee, Member of the Remuneration Committee, Member of the Risk Management Committee and Member of the Nomination Committee to 16 August 2022.

3. Compliance of the remuneration of the Members of the Management Board and Members of the Supervisory Board with the Remuneration Policy

The total remuneration of the Members of the Management Board and Members of the Supervisory Board complies with the Remuneration Policy adopted by the Company and contributes to accomplishment of long-term targets and results of the Company as well as to sustainable development of the Company and Group. The Company's employees are remunerated adequately for their work and encouraged to achieve the best results possible, including accomplishment of the Company's strategic goals.

According to the Remuneration Policy adopted by the Company, the basis for determination of the total value of remuneration of the Members of the Management Board and Members of the Supervisory Board in 2022 was evaluation of the effects of work of the given person and given organisational unit in relation to the general performance of the Company. Furthermore, the remuneration paid to the Members of the Management Board and Members of the Supervisory Board is also based on the current situation of the Company. When granting and paying the variable remuneration components, the size of the Company, its financial results, risk related to its business, internal organisation as well as scope and degree of complexity of the Company's business were taken into account. The business strategy of the Company and Company's capital Group ("Group") is available on the Company's website, in the "Investor Relations" section. The strategy of the Company and Group is based on the following areas of development:

- (i) business development on the markets where the Group is present in Central and Eastern Europe and Western Europe;
- (ii) expansion of the Group's international presence through entry into new markets, including markets in Latin America, Africa and Asia;
- (iii) development of the institutional segment of activity (X Open Hub);
- (iv) extension of the Group's product and service offer as well as development of new technologies;
- (v) development through mergers and acquisition of other entities as well as joint ventures.

The remuneration of the Members of the Management Board and Members of the Supervisory Board in 2022 took into consideration the objectives determined in the Remuneration Policy. Pursuit of the business strategy adopted by the Company, its long-term interests as well as maintenance of the Company's stability were taken into account when determining the value of remuneration. The objectives determined in the Remuneration Policy were pursued through:

Neither the Company nor its shareholders are responsible for translation errors, if any, or for any discrepancies between the original document and this translation into English.

- (i) determination and adoption of clear, stable and predictable rules regarding entering into legal relationships with the Members of the Management Board and Members of the Supervisory Board, rules of remuneration of the Members of the Management Board and Members of the Supervisory Board as well as compliance with them;
- (ii) making the variable remuneration components conditional upon performance of individual Members of the Management Board and performance of the Company and Group and, thus, encouraging pursuit of the Company's strategy;
- (iii) supervision over the application of the Remuneration Policy by the Supervisory Board and participation of the General Assembly in the process of adoption and control of compliance with the rules laid down in the Remuneration Policy.

4. Performance criteria

According to the Remuneration Policy adopted by the Company, in 2022 the Members of the Management Board who are subject to the Policy received variable remuneration in the form of the annual bonus depending on accomplishment of management objectives. This remuneration depended on the individual performance of each Member of the Management Board as well as on the performance of the Company.

The value of the target variable remuneration was determined under a resolution of the Supervisory authorised to perform this action. The relevant information on the objectives set for individual Members of the Management Board as well as rules of assessment of accomplishment of objectives was communicated to the individual Members of the Management Board by the end of Q1 2022.

When evaluating the individual performance of the Members of the Management Board, both financial and non-financial criteria were taken into consideration. The financial criteria taken into consideration in evaluation of individual performance included, without limitation:

- (i) compliance with the budget of the Company and Group;
- (ii) compliance with the budget of the organisational unit for which the Member of the Management Board is responsible;
- (iii) performance of tasks yielding additional and unplanned revenues or savings, taking into consideration the risk related to performance of such tasks;
- (iv) occurrence of losses which could have been objectively avoided (as a negative evaluation factor).

The non-financial criteria taken into consideration in evaluation of individual performance included, without limitation:

- (i) participation in activities having effect on the Company's reputation;
- (ii) meeting the competence expectations;
- (iii) timeliness of performance of tasks entrusted to the individual Members of the Management Board, taking into account objective conditions of performing such tasks;
- (iv) approach to risk, including if actions exposing XTB to excessive or excessively concentrated risk were taken;
- (v) pursuit of strategy in the supervised areas.

The individual performance assessment was based on data from at least three last financial years, and in case of Members of the Management Board employed by the Company for a period shorter than three years – on data from the beginning of the employment relationship, so that the actual payment of the remuneration components conditional on the performance of the Company was distributed over a period representing an economic cycle and the risk connected with the business conducted by the Company. Additionally, the structure and value of variable remuneration components in relation to the total remuneration does not encourage taking of short-term and risk-bearing actions.

Neither the Company nor its shareholders are responsible for translation errors, if any, or for any discrepancies between the original document and this translation into English.

The value of each synthetic share is equal to the Company's stock price at the time of session closing on the Warsaw Stock Exchange on the 7th day upon publication of the report containing the consolidated financial statements of XTB for the prior financial year, and if no such price exists on that day, it is equal to the first closing price published by the Warsaw Stock Exchange after that day. The value of each synthetic stock is fixed over time.

8. Refund of variable remuneration components

According to the provisions of the commonly governing law, the variable remuneration components must be granted or paid taking into consideration the financial standing of the brokerage house and - if reasonable - taking into consideration the financial results of the brokerage house or results generated by the organisational unit in which the given person acted. Concurrently, the brokerage house can limit, withhold or refuse payment or execution of a part or all variable remuneration components if the brokerage house shows a loss.

According to the rules regarding variable remuneration components adopted by the Company, the Member of the Management Board entitled to variable remuneration components cannot submit the request for buy-back of financial instruments in the given financial year if the approved financial statements of the Company for the immediately preceding financial year showed a loss at the consolidated level. In the case of an event referred to in the previous sentence, the request cannot be submitted until the value of the loss incurred by the Company, plus potential further losses, is covered with reserve capital from retained profits from prior years or balanced with value of future profits of the Company.

In 2022 the Company did not request refund of variable remuneration components granted to the individual Members of the Management Board.
